

FIG. 1

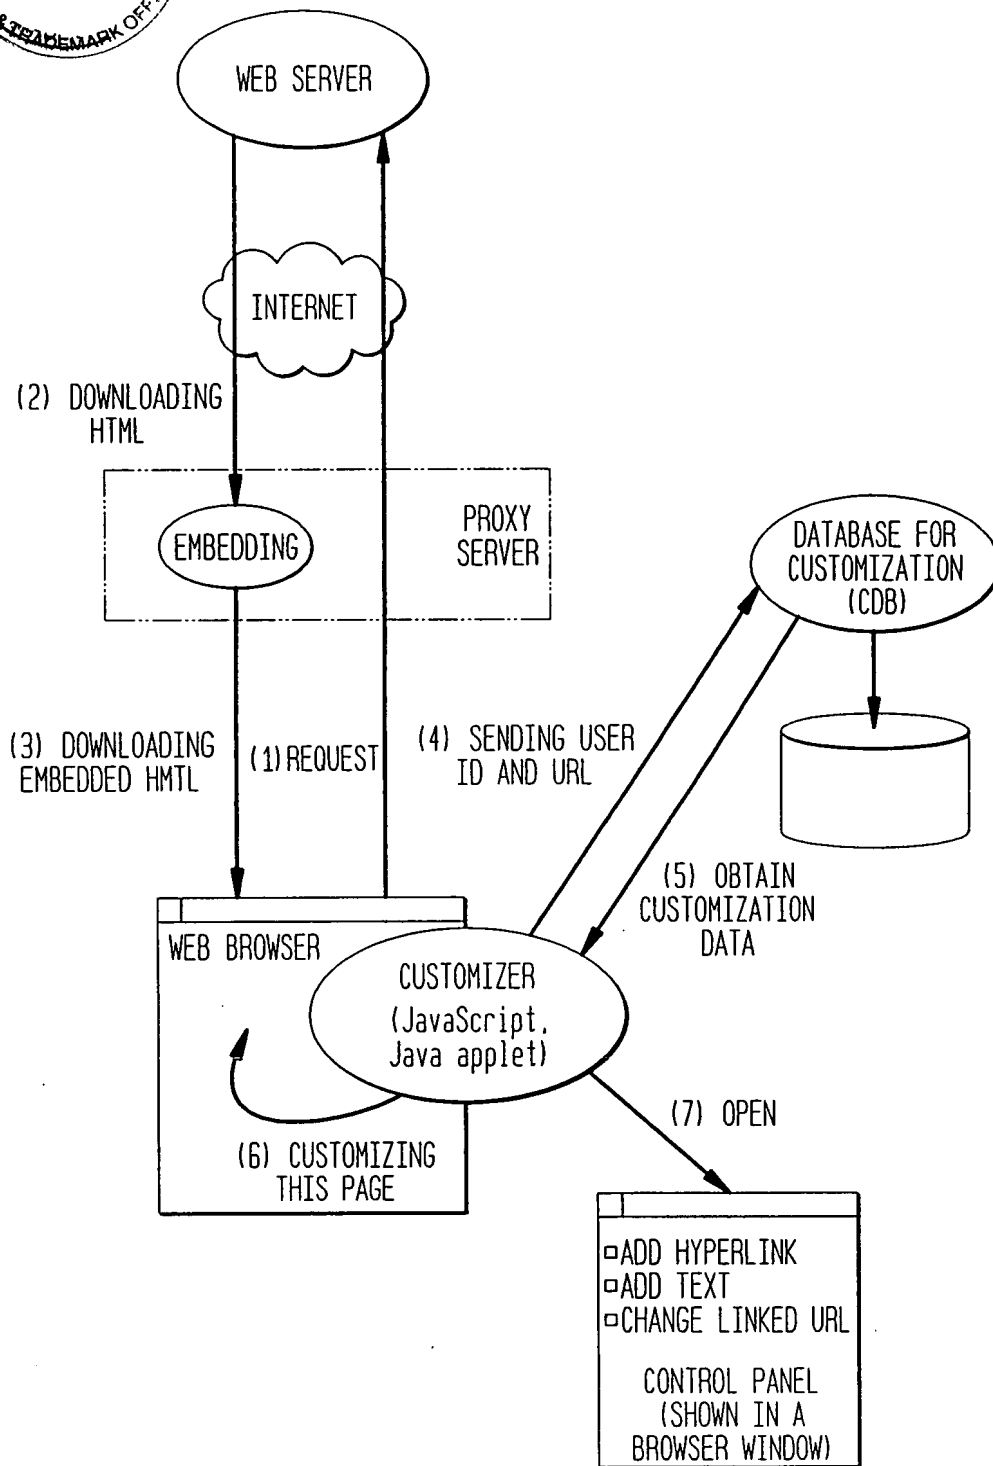

FIG. 2

The image shows a screenshot of a web design software interface. At the top, there is a 'WEB PALLETTE' window with various icons for text, background patterns, and colors. Below it is a larger 'BACKGROUND' dialog box. The 'BACKGROUND' dialog box has a 'BACKGROUND' label and a 'COLOR' dropdown menu set to 'YELLOW'. Below this is a 'COMPONENT' section with a 'TEXT IN (HTML)' label and an 'ADD' button. To the right of the 'ADD' button is a text input field with up and down arrow buttons. Below the 'TEXT IN (HTML)' section is a 'HYPER-LINK' section with an 'ADD' button and two input fields labeled 'TEXT' and 'URL'. At the bottom of the dialog box is a 'TEXT AND LINK OPTIONS' section with several dropdown menus for 'TEXT' (SERIF), 'SIZE' (8PT), 'STYLE' (NORMAL), 'WEIGHT' (NORMAL), 'DECORATION' (NORMAL), and 'TEXT COLOR' (BLACK). At the very bottom of the dialog box are three buttons: 'OK', 'CANCEL', and 'CLEAR'.
